

BLACK ROAD 2012

Book I, Empire Of The Gods, The God Conspiracy...

TO LIVE FOREVER ISN'T HUMAN

Black Road 2012 is a paranormal thriller structured around the ancient Mayan Doomsday prophecy—said to fulfill itself on December 21, 2012, at 11:11 AM, when the sun will align with the center of the galactic core, the current world Age will end, and a New World Age will begin with flood, famine, and the end of God.

In Black Road 2012, a young woman and her unborn twins are murdered. Her ex private eye husband Jack Vane finds himself charged with the murders, and somehow at the center of a sinister global conspiracy.

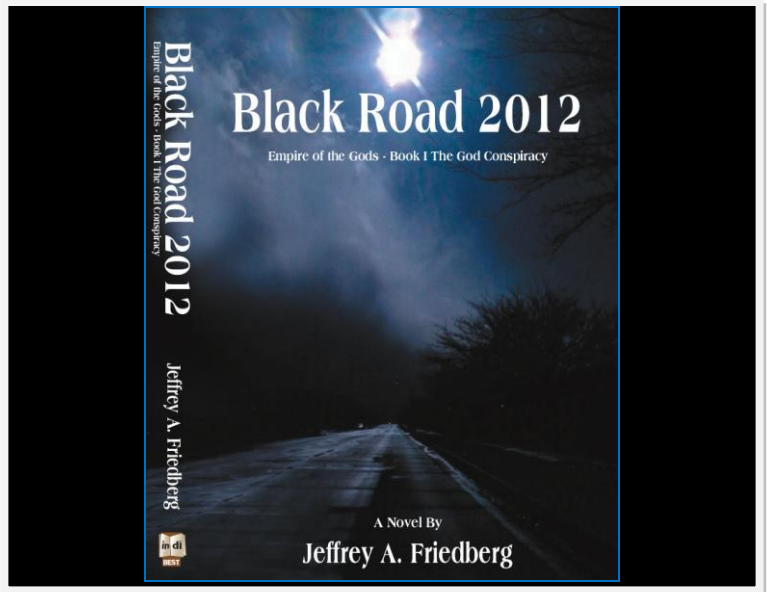

Jack Vane is hunted by dark forces from this world and another—forces hell-bent on using a terrible secret to enslave Earth and all of Humanity—forever. In the end, the future depends on Jack's choice between his own humanity and godhood.

Sited in eerie New Mexico, *BR2012* features singular Native Americans, mythology, and philosophy. It also presents stirring adventure, a love story, and draws the dark curtain of history, revealing shadow governments, lost ancient science, a sinister mystic relic—and *more*.
